# AUTOMATION

Providing the ultimate BPO form fill user experience. The iForm is a web application that centralizes all compatible companies to one standard form and then automates all possible data entry, comments, & calculations from the exported MLS data (CSV file).

Combined with the iFill Chrome extension and your BPO data entry can be filled in 5-10 minutes on supported valuation forms.

# OUTSOURCING

## TURBO

Empowering Agents and Brokers to bring their BPO business to new heights. With over a decade of industry experience we have procured a solid team of international contractors to fulfill your Broker

Price Opinion reports within 24 hours or less. A nationwide BPO on demand service covering any web based Broker Price Opinion forms and nearly all MLS systems with 24/7 chat & email support to boot.

## TURBO+

If you outsource your broker price opinion orders then you can avail of the service for manual acceptance of your orders in a timely fashion. Our staff keep an eye on your inbox around the clock and accept orders you may not have gotten to if you're away from your computer: or maybe even if you are behind your computer - we are quite fast!

## TURBO MAX

This service includes a full service BPO report, order capture, email management, and property inspection all in one. Service is subject to inspector availability primarily in major cities.
